

EM library tags

Optimizing Security of Your Valuable Library Collections

To effectively secure valuable library assets, APTQ has designed the Library Tag Program, catering to the demands of efficient tagging processes in libraries. This program offers a diverse range of EM (Electromagnetic) tags, suitable for various applications.

Available in multiple sizes and finishes, EM tags are designed to provide comprehensive protection for all types of library materials. Utilizing high-quality EM tags allows for secure circulation of resources, ensuring reliable performance and optimal collection preservation.

The available EM tail tags from APTQ can be distinguished in two ways;

- Length
- Position of application

Two versions of EM tags:

1. EM tail tags

2. EM CD/DVD labels

Benefits:

- Shrinkage reduction
- Employs advanced electromagnetic EM technology for superior performance
- This tag is pH-neutral, meaning it possesses minimal acidic or alkaline properties. This is a significant advantage as it ensures long-term preservation and protection of your materials, preventing any chemical damage or deterioration over time.
- The use of special paper in our tags denotes a premium quality and durability not found in standard tags. This special paper is more resistant to wear and tear, environmental factors, and potential damage during handling.
- Our tags are made with high-quality magnetic detection material. This offers superior detection capabilities, reducing the chance of theft and unauthorized removal. The Advanced High Performance (AHP) Library Tag represents the pinnacle of modern tagging technology
- And much more!

Applications:

- Loss prevention at libraries

EM library tags

Specifications

Features

PH-neutral (little or no acidic or alkaline properties)	●
Special Paper	●

● Included ○ Optional

High quality magnetic detection material	●
Advanced High Performance (AHP) Library Tag	●

Length 125mm or 165mm

125mm will work perfectly with the APTQ EM systems

165mm will be advised for optimum performance for EM systems from other suppliers

Position of application: DSA or SSA tag

In the gutter of the book; Double Side Adhesive (DSA)

In the spine of the book; Single Side Adhesive (SSA)

EM CD/DVD labels

Operating frequency	366 Hz
Function	Compact Discs (DVD, CD, CD-ROM's, are protected by applying a CD protection label with integrated EM security strip directly to the disc and are available for circulating and non-circulating collections.
Standard size tags	Ø114 mm with 95 mm length security tag

Product reference

SKU	EM-BL-N
SKU	EM-CDBL-N

With over 25 years of experience, APTQ specializes in electronic systems in Canada. Our team offers a range of quality products for loss prevention, inventory management, and cross-selling. We provide the best technologies available on the market, combined with our recognized expertise in the field, to ensure an optimal experience in every respect.
