

## **Sensormatic® AMK-1010 Detacher** Detacher

The Sensormatic® Detacher AMK-1010  
efficiently detaches the AM SuperTags  
affixed to merchandise

# Sensormatic® Detacher AMK-1010

## Detacher

The Sensormatic® AMK-1010 Detacher is a specially designed tool for the efficient removal of SuperTag anti-theft tags at the point of sale. This model is compatible with all standard SuperTags and may also work with certain intelligent SuperTags, although it does not capture RFID data from these intelligent tags.

Designed with a flush-mounted model, the body of the detacher is partially recessed into the counter, providing a sleek and unobtrusive appearance. This design also ensures easy access and operation at the point of sale, enhancing the checkout process.

### Benefits:

- Shrinkage reduction
- Design for removal of all Sensormatic Supertags
- Equipped with visual indicators for power and detaching, providing clear operational status
- Features an automatic lock when inactive, enhancing security
- Unlocks using a three-digit passcode, providing an additional layer of security
- Rugged construction ensures durability for day-to-day use
- Housed in a compact casing for a minimal footprint, preserving counter space
- Limits the time duration when the pin can be removed, preventing unauthorized removal
- And much more!

### Applications:

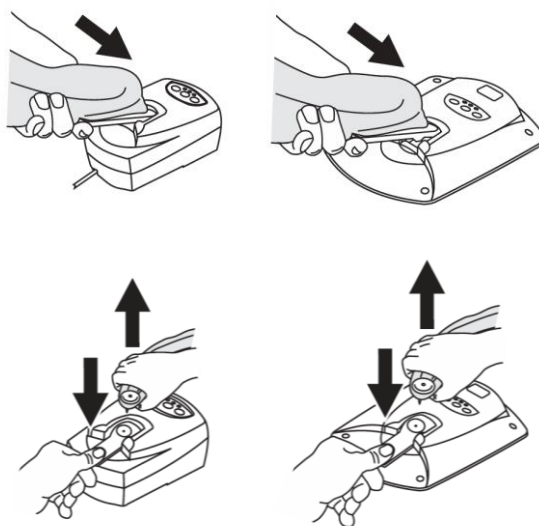

- Loss prevention at retail stores

### Refurbished Item Warranty

As a refurbished item, this detacher has undergone a thorough cleaning, repainting, and testing process to ensure it meets our high standards of quality and performance. Any defective components have been replaced, and the unit is backed by a 12-month warranty covering parts and labor from the date of installation. This warranty provides you with peace of mind, knowing that your investment is protected.

### Installation

To ensure optimal functionality and safety, installation by a certified professional is recommended.
