

## **Sensormatic® AMD-1000** Detacher

The Regular Detacher efficiently  
detaches the tags affixed  
to merchandise

# Sensormatic® AMD-1000 Detacher

The Sensormatic® AMD-1000 Detacher, designed for efficient removal of pins from most hard tags, is a robust and durable tool crafted from high-strength plastic. This model is intended for countertop installation and is optimized for minimal space usage, making it a practical choice for various retail environments.

Please note, however, that this detacher is not compatible with Sensormatic® SuperTags, UltraGator tags, MicroGator tags, Sensormatic® Fashion tags, and Alpha SpiderWraps.

## Benefits:

- Shrinkage reduction
- Designed for compatibility with a wide range of hard tags
- Easy to install on countertops, requiring minimal space
- User-friendly operation, ensuring a smooth checkout process
- Constructed from robust and durable plastic for long-term use
- Features a sleek black color, blending seamlessly with a variety of counter aesthetics
- And much more!

## Applications:

- Loss prevention at retail stores

# Sensormatic® AMD-1000
