

Rondo™ RF RF security detection system

Rondo™ system reduces
unauthorized removal of products
by detecting the RF tags in any direction

Rondo™ RF

RF security detection system

The Rondo 8.2 Mhz antenna system is the best entry model system available on the market today, powered by superior, original MTC Electronics.

Design

The Rondo System is of simple design but maximum effectiveness and is ideal for all possible retail solutions like Supermarkets, DIY stores, drugstores, garment shops and shopping malls. The totally new design of aluminium profiles fits perfectly into any modern retail environment.

Trolley Bumper

APTQ provides various accessories for security products. One of them is the trolley bumper. Trolley bumpers give extra protection to the system itself.

Benefits:

- Shrinkage reduction
- Effortless, quick setup without complexities
- Enhance security with advanced theft prevention
- Sleek aesthetics paired with top-tier detection
- Multi-color alerts for clear notifications
- Audible, distinct alarm ensuring immediate attention
- Durable and premium aluminum build for longevity
- Simplified design means fewer cables and easy installation
- High-quality electronics ensure reliable and consistent performance.
- Extended Connectivity: Dual Set up offer better coverage
- And much more!

Applications:

- Loss prevention at retail stores

Remote system management

All APTQ RF systems are easily installed and tuned through software. Remote tuning capability reduces maintenance costs and downtime.

Installation

To ensure optimal functionality and safety, installation by a certified professional is required.

Specifications

Features

Superior, original electronics	●
Great design, maximum detection	●
RGB alarm light	●
Clear buzzer alarm sound	●

● Included ○ Optional

Lightweight aluminum profiles	●
Superior, original electronics	●
Automatic synchronization	●
Optional integrated booster bag detection	●

Detection range

Mono Set up	Up to 1.4 m
Dual Set up	Up to 2.0 m

Technical specs

Category	Brand new
Width	374 mm
Height	1530 mm
Depth	42 mm
Weight	9 kg
Power	120 V (necessary power cable included)
Operating temperature	Up to 58°C / 185°F

RF specifications

Operating frequency	8.2 Mhz
Technology	Supports Mono System and Dual System configurations
Supported tags	All APTQ RF tags and various RF tag suppliers

Detection ranges measured under low electrical noise conditions. Detection ranges under higher electrical noise conditions may decrease. For mono systems, total detection coverage (both sides of the antenna). For dual systems, detection coverage between the antennas.
