

Ultra-Clear™ RF deactivator

The Ultra-Clear™ efficiently deactivates the RF tags
affixed to merchandise

Ultra-Clear™ RF deactivator

This RF deactivator offers a streamlined plug-and-play solution, integrating both the pad and electronics into a single unit. Its slender profile ensures adaptability for diverse implementation methods. When RF labels pass over it, they're instantly deactivated. For hard tags, the device doubles up as a verifier, emitting a sound to signal that a tag remains on the item, signaling for its removal.

Installation

To ensure optimal functionality and safety, installation by a certified professional is required.

Benefits:

- Shrinkage reduction
- With efficiency and speed, it ensures high throughput and shortens checkout times
- Eliminates the need for a traditional key switch
- Adapts to a variety of installation preferences
- Signifies power status and confirms successful deactivation
- Exhibits a dark grey color, blending seamlessly with a variety of product aesthetics
- And much more!

Applications:

- Loss prevention at retail stores

Ultra-Clear™

Specifications

Features

Visual indicator deactivation	●
Provides audio feedback	●
Offers flexible mounting options	●

High-quality electronics	●
