

Lanyard pin

Pin

The Lanyard Pin provides a versatile solution for securing items with handles or irregular shapes that traditional security tags cannot accommodate. It is particularly effective for items that cannot be pierced with a pin, such as luggage, handbags, certain sporting goods, and a range of hardware items. This flexibility ensures a broad spectrum of merchandise can be effectively protected against theft.

In addition to its versatility, the Lanyard Pin is designed for ease of use. Its simple yet effective mechanism allows for quick and efficient application and removal, minimizing disruption at the point of sale.

Please note: This lanyard pin is not compatible with MicroGator, UltraGator tags, and Super tags.

Benefits:

- Shrinkage reduction
- Designed for compatibility with a wide range of security tags
- Constructed with a flexible and robust galvanized steel wire
- Requires a magnetic detacher for removal, ensuring secure attachment
- Exhibits a sleek black color, blending seamlessly with a variety of product aesthetics
- And much more!

Applications:

- Loss prevention at retail stores
