

## Universal Superlock Detacher Detacher

The Universal Superlock Detacher  
efficiently detaches the tags  
affixed to merchandise

# Universal Superlock Detacher Detacher

The Universal Superlock Detacher is expertly engineered to extract pins from a wide array of hard tags. Constructed from plated aluminum, this detacher boasts robustness and longevity, making it a reliable tool for retail security. This particular model offers versatility in installation, as it can be seamlessly integrated into the counter or simply placed atop it for easy access.

Please note, however, that the Universal Superlock Detacher is not compatible with Sensormatic SuperTags, UltraGator tags, MicroGator tags, Sensormatic Fashion tags, and Alpha SpiderWraps. This ensures you make an informed decision when considering its applicability to your specific security needs.

## Benefits:

- Shrinkage reduction
- Designed for compatibility with a wide range of hard tags
- Easy to install on countertops, requiring minimal space
- User-friendly operation, ensuring a smooth checkout process
- Constructed from robust and durable plastic for long-term use
- Features a sleek black color, blending seamlessly with a variety of counter aesthetics
- Equipped with a robust and durable magnet, ensuring reliable performance
- And much more!

## Applications:

- Loss prevention at retail stores
