

Spider-Tag Hybrid

Hybrid tag

The Spider Tag is a multifaceted security device, compatible with both AM and RF frequencies. Its design incorporates a cable that wraps securely around items, making it an optimal choice for protecting products housed in small to medium-sized boxes, such as tools, cosmetics, game consoles, and computers.

In addition to its physical deterrent, the Spider Tag boasts an integrated audible alarm that activates if the cable is cut, providing an immediate theft alert. Simultaneously, the tag is engineered to trigger AM detection panel systems if the protected item is moved through the detection zone, offering an enhanced layer of security. Its robust lock mechanism and flexible cable system combine to create a formidable deterrent that is adaptable to a wide range of product shapes and sizes.

Benefits:

- Shrinkage reduction
- Equipped with dual-alarm technology:
1) Triggers an alarm when passing through the detection field of the store's loss prevention system, and 2) Emits a loud 95 dB alarm when the cable is cut, providing an additional layer of security.
- Detection of both technologies: radio-frequency (RF) operating at 8.2 MHz and acousto-magnetic (AM) operating at 58 kHz
- Features a robust Super Lock mechanism that is difficult to circumvent, enhancing security.
- Exhibits high durability and is widely used across various retail sectors.
- Features a coated lanyard for added security and durability.
- Exhibits a dark grey color, blending seamlessly with a variety of product aesthetics.
- And much more!

Applications:

- Loss prevention at retail stores

Spider-Tag Hybrid

Specifications

Features

Detection of both technologies: RF and AM	●	Features a coated lanyard	●
ABS material	●	Exhibits high durability	●
Super Lock mechanism	●	Requires a Universal Superlock Detacher	●
Dark grey color	●	Equipped with dual-alarm technology	●

● Included ○ Optional

Technical specs

Category	Brand new
Width	59 mm
Height	50 mm
Cable length	800 mm
Weight	70 g
Operating temperature	Up to 40°C / 104°F

Frequency specifications

Operating frequency	58 kHz and 8.2 MHz
Supported detacher	Universal Superlock Detacher

Package contains

1x Box of 50 Spider-Tag Hybrid

Product reference

Spider-Tag AM	AM-SPT-N
Spider-Tag RF	RF-SPT-N

With over 25 years of experience, APTQ specializes in electronic systems in Canada. Our team offers a range of quality products for loss prevention, inventory management, and cross-selling. We provide the best technologies available on the market, combined with our recognized expertise in the field, to ensure an optimal experience in every respect.
